

## ArrearsMaster® Calculator

### Release notes:

The ArrearsMaster® Calculator that is initially installed from our Internet website is a TRIAL version. This program is intended to demonstrate the core functionality and ease of use of the fully licensed product. After 7 days the program becomes an EVALUATION version where some features have been disabled. Once the TRIAL program is licensed it becomes a full functioning product. Licensing the TRIAL or EVALUATION version for full use can only be done by purchasing a license from Bradley Software. The TRIAL OR EVALUATION program can be installed on as many computers as you wish.

The fully licensed program is intended to be installed on one computer only. The installation program has been designed to allow only one installation on one computer. In this sense, the program is somewhat like a paperback book; any number of people can read a paperback book, but only one person at a time!

Once the program is licensed it can be moved (transferred) to a different PC if desired.

If you have problems installing or using this application, [CLICK HERE](#) for technical support.

### TABLE OF CONTENTS:

The basic steps to install the product for full use are pretty simple:

1.0 Licensing - Purchase a license to receive your license code.

2.0 Registration - Key he license code into the demo program.

3.0 Transfer a license

#### 1.0 Licensing

Licensing the application for full use can be accomplished one of three ways:

- 1) While the trial program is running, open the HELP menu and select the sub-menu "TO PURCHASE A LICENSE".
- 2) Go to [www.bradleysoftware.com/purchase1.asp](http://www.bradleysoftware.com/purchase1.asp) This page will allow you to purchase a license on-line.
- 3) Fill out an order form at [www.bradleysoftware.com/order-bradley-software.asp](http://www.bradleysoftware.com/order-bradley-software.asp). FAX it to 866-424-4865.

#### 2.0 Registration

Once you have received your registration code it is quite easy to register the application for full use. Remember that your initial registration code is valid only on the machine it was purchase for initially.

- a) When the program first opens you'll get a Welcome screen.
- b) Click on the option to "Enter Registration Number" and click OK.
- c) Click YES if you purchsed on-line.
- d) Key in your registration number. Click OK, this instantly enables the program for full use.

#### 3.0 Transferring a license to another machine

Once the program is licensed for full use, you may move the license to another machine. [CLICK HERE](#) for instructions.
