

Kansas Child Support Calculator - Release notes:

The Kansas Child Support Calculator (the program) that is installed from our Internet website is a TRIAL version. This program is intended to demonstrate the core functionality and ease of use of the fully licensed product but some features have been disabled. Once the TRIAL program is licensed it becomes a full functioning product. Licensing the TRIAL version for full use can only be done by purchasing a license from Bradley Software. The TRIAL program can be installed on as many computers as you wish.

The fully licensed program is intended to be installed on one computer only. The installation program has been designed to allow only one installation on one computer. In this sense, the program is somewhat like a paperback book; any number of people can read a paperback book, but only one person at a time!

Once the program is licensed it can be moved (transferred) to a different PC if desired, but the program must first be removed (un-installed) from the PC on which it is presently installed. Simply deleting the program files directory or running the Windows "Add/Remove Software" process is NOT sufficient.

If you have problems installing or using this application, [CLICK HERE](#) for tech support.

TABLE OF CONTENTS:

The basic steps to install the product for full use are pretty simple:

- 1.0 Licensing - Purchase a license to receive your license code.
- 2.0 Registration - Key the license code into the demo program.
- 3.0 Transfer a license

----- 1.0 Licensing -----

Licensing the application for full use can be accomplished one of three ways:

- 1) While the trial program is running, open the HELP menu and select the sub-menu "TO PURCHASE A LICENSE".
- 2) Go to www.bradleysoftware.com/purchase1.asp This page will allow you to purchase a license on-line.
- 3) Fill out an order form at www.bradleysoftware.com/order-bradley-software.asp. FAX it to 877-424-4865.

----- 2.0 Registration -----

Once you have received your registration code it is quite easy to register the application for full use. Remember that your initial registration code is valid only on the machine it was purchase for initially.

- a) When the program first opens you'll get a Welcome screen.
- b) Click on the option to "Enter Registration Number" and click OK.
- c) Click YES if you purchased on-line.
- d) Key in your registration number. Click OK, this instantly enables the program for full use.

----- 3.0 Transferring a license to another machine -----

Once the program is licensed for full use, if you want to move the license to another machine you can do this without the assistance of Bradley Software.
